PRESS RELEASE

LidWorks® Announces New Anti-Theft Clear Flat Straw Slot Lids for Foam Cups

Plant City, FL – LidWorks is pleased to announce its new Anti-Theft Clear Flat Straw Lids for Foam Cups.

LidWorks' new Clear Flat Straw Slot Lids feature an elegant design which enhances product appeal and increases customer satisfaction. By being clear, these lids deter theft because an operator can easily view the contents and ensure they are “ringing up” what is actually inside the cup. These lids are equipped with today's most popular flavor buttons... “Regular”, “Diet” and “Other”..., are available in the three most common sizes... 12-24, 32, and 44 oz., and fit traditional size Foam Cups.

“Our new Anti-Theft Clear Flat Straw Slot Lids meets today's operators' ever-increasing operational needs,” stated Todd S. Mauer, Vice President of Sales & Marketing.

LidWorks is the global foodservice industry's premier lid manufacturer that delivers growth through innovation.
