PRESS RELEASE

LidWorks® Announces Revolutionary New Low Dome Lids for Foam Cups

Plant City, FL – LidWorks is pleased to announce its revolutionary new Low Dome Lids for Foam Cups.

LidWorks' revolutionary Clear Low Dome Lids with Straw Slot feature an elegant design which enhances product appeal and increases customer satisfaction. By being clear, these lids deter

theft because an operator can easily view the contents and ensure they are “ringing up” what is actually inside the cup. These lids are available in today's two most popular sizes... 12 and 24 oz., and fit standard size Foam Cups.

“Our revolutionary Clear Low Dome Lids with Straw Slot meets today's operators' ever increasing operational needs,” stated Todd S. Mauer, Vice President of Sales & Marketing.

LidWorks is the global foodservice industry's premier lid manufacturer that delivers growth through innovation.

For more information about LidWorks' solutions, please contact the Sales & Marketing Department at 888.752.5579 or visit www.LidWorks.com.
