PRESS RELEASE

LidWorks® Employees Endure 12-Mile Long Tough Mudder

Plant City, FL – Recently LidWorks employees took on a Tough Mudder! A 12-mile long obstacle course designed to test all around strength.

Jim Parris, our former Process Engineer, was the organizer and he was more than proud of his team “*Going Down Without A Fight*” (GDWAF). He stated, “All of us finished in a little over 5 hrs. It was due to a really inspiring teamwork that we could all finish, because everyone had different strengths and we needed everything that everyone had. Truly the hardest thing we have ever done. I have some excellent memories from the event and from all of the training we put in.”

Patty Dougherty, our former Human Resources Manager, announced, “We give a ‘big shout’ out to Jim, Tyrone, Kerime, Natalie, Rocio, Rodney, Mario, Stacy and Gustavo for participating in the Tough Mudder Event in Kissimmee, Florida.”

LidWorks is the foodservice industry's premier lid manufacturer that delivers growth through innovation.
